REPORT OF EXAMINATION
MOBIL OIL COMPANY
TRIBAL LAGUNA PUEBLO INDIAN PERMITS
VALENCIA COUNTY, NEW MEXICO

TRIBAL PERMITS
URANIUM PERMITS
TRACTS 2, 3

by
David R. Stewart
Mining Engineer

U. S. DEPARTMENT OF THE INTERIOR
GEOLOGICAL SURVEY
BRANCH OF MINING OPERATIONS
CONSERVATION DIVISION

On January 20, 1972, the writer accompanied by Oliver Neie and Vince Pedro of the Bureau of Indian Affairs and Don Kublish, geologist for Mobil Oil Corporation, inspected abandoned drill sites and roads constructed for the drilling programs on Laguna Tribal land uranium permits known as Tracts 2 and 3. The lands involved include 8,266 acres in Township 10 North, Ranges 5 and 6 West, NMPM, Valencia County, New Mexico.

The property was found in a satisfactory condition. This office has not received the last quarter's report and the drill hole information on drilling during this quarter. When this information is received this office will answer your request for a recommendation concerning the relinquishment of the permits.

On September 17, 1971, the writer accompanied by Gilbert Pacheco, Laguna Tribal Secretary; Jim Poncho, Staff Officer; and Don Kublich, Geologist for Mobil Oil Company inspected abandoned drill sites on Laguna Tribal land uranium permits known as Tracts 2 and 3. The lands involved include 8,266 acres in Township 10 North, Ranges 5 and 6 West, NMPM, Valencia County, New Mexico.

Twelve holes were inspected on Tract 3 and found properly abandoned. Tract 2 was not inspected at this time due to rain and road conditions. It is planned in the near future to complete the drill site inspection of Mobil's Phase 1 drilling program.

No drilling is being conducted at this time. Mobil drilled 155 holes on Tracts 2 and 3 under their Phase 1 program. Drill hole data are being analyzed to determine future plans. The engineers of this office will inspect the permits as necessary.
